michelle@astrofix.net

*Diego's Sun in Sagittarius and Frida's Sun in Cancer:*

The two of you are quite different. Whereas Diego tends to be idealistic, and somewhat impersonal or philosophical about personal issues, Frida is very emotional, sympathetic, and apt to get totally enmeshed in personal problems or concerns. Diego is often humorous or blase and even seemingly indifferent to the things which matter so much to Frida. This, along with Diego's characteristic blunt honesty, can wound Frida deeply.

Another difference between you is that Frida cherishes the past, while Diego often has little interest in reminiscing or dwelling on what went before. Diego is more future-oriented, and also more of a gambler or risk-taker.

Although you may have a lot to offer one another, it is unlikely that spending a great deal of time together would work out well. You're best for each other in small doses.

*Diego's Moon in Taurus and Frida's Moon in Taurus:*

You two have very similar emotional needs and instinctive responses to situations. The one problem you may have is that you are both so stubborn that when you lock horns, neither of you is willing budge.

Both of you have a strong urge for material comfort and security, domestic stability, peace, and

serenity. In fact, you are very obstinate and inflexible when it comes to changing your routine or making an adjustment in your personal life. You need a slow pace, time to chew over feelings and digest experiences before taking any action. You share a great love and enjoyment of nature, gardening, food, and other simple pleasures.

*Frida's Sun Opposition Diego's Mars:*

This is an active, energetic relationship and you can accomplish a great deal together. Be wary, however, of the tendency to butt heads when your combined dynamic energy makes you both feel impatient.

*Frida's Sun Square Diego's Uranus:*

When the two of you get together, you make a lot of noise, and there is lots of excitement. There is a strong element of unpredictability and spontaneity as well and you enjoy improvising new ideas and playing together. Because there is a loose, spontaneous quality to your relationship, you find that very often you can not depend on each other and it is difficult for the two of you to focus on mundane, tedious, or onerous tasks together. This is a good relationship for exploring new possibilities and interests and for spurring each other to become more spontaneous, independent, and creative, but a difficult relationship if dependability and commitment to each other is a high priority.

*Frida's Moon Conjunction Diego's Neptune:*

You are very sympathetic and sensitive to one another's moods and emotional needs. Diego, especially, is very compassionate and aware of Frida's feelings. You also enjoy sharing ideals, social concerns, religious views, artistic, and musical tastes, and you are likely to engage in important social welfare, religious, and artistic areas together. However, if either of you has emotionally-based problems such as alcohol abuse, drug abuse, or fanatical religious attitudes, this problem will quickly become the focus of the relationship and undermine the relationship until the problem is overcome or the relationship dissolves.

*Frida's Moon Conjunct Diego's Pluto:*

If your relationship is a close one, you will find that you "get under each other's skin" and you develop strong feelings, both positive and negative, towards each other. Frida is likely to detest certain things about Diego, not realizing that these qualities are ones that Frida also shares but will not consciously admit to also having! This relationship has the potential to help both of you clear away subconscious blocks and inhibitions, but you may also become only further embroiled in your own prejudices and emotional "hang-ups"; the choice is yours.

*Diego's Moon Sextile Frida's Jupiter:*

A pleasant, harmonious tone pervades your relationship. This quality is so natural to your association that it is easy to take it for granted. You feel very at home and comfortable with each other. You put each other in a good mood. You may, however, also bring out a lazy, indolent, self-satisfied side in one another.

*Diego's Mercury Trine Frida's Mercury:*

You solve problems and think about issues with a similar perspective and you are able to communicate clearly to each other. You enjoy talking to each other, sharing ideas, and learning from each other, and you are able to plan, design, and develop ideas jointly in a very successful manner.

*Diego's Mars Conjunct Frida's Mars:*

You energize, stimulate, provoke, inflame, and challenge one another! You can also irritate, anger, fight, push, and drive each other! Together you can accomplish an enormous amount of work, and it is important to you to share vigorous physical activities as an outlet for some of the fire you stir up in one another.

*Diego's Mars Opposition Frida's Jupiter:*

You spark each other's ambitions and hopes. You find yourselves scheming together, developing

business plans, or other strategies for achieving success. You encourage each other to set your goals high and it is likely that you will undertake several joint ventures together. Over-optimism and unrealistic hopes are your liabilities; enthusiastic hard work is your asset.

*Frida's Mars Square Diego's Uranus:*

You enjoy dynamic physical activities together, and it is likely that you enjoy playing sports, competing against each other, and doing things together in a spirited, zealous manner. You are quite a "dynamic duo" but you are also inclined to become angry with each other and feel irritated by each other. The friction and impatience that you arouse in each other can also lead to pushiness, power struggles, anger, and hostility. You often provoke one another needlessly.

Notes:

Composite, Midpt-to-Midpt, and Mixed Midpt conjunctions and oppositions

have 2 pairs of angles that are the same, as follows:

Composite: Synastry angles, and Natal angles (with opposite phase)

Midpt-to-Midpt: Synastry angles, and Same planet to same planet synastry

Mixed Midpt: Natal angles, and Same planet to same planet synastry

For example:

Composite:  $SuA-MoB = SuB-MoA$ ,  $SuA-MoA = MoB-SuB$

Midt-to-Midpt:  $SuA-MoB = SuB-MoA$ ,  $SuA-SuB = MoA-MoB$

Mixed Midpt:  $SuA-MoA = SuB-MoB$ ,  $SuA-SuB = MoA-MoB$

( $SuA = A$ 's Sun,  $SuB = B$ 's Sun,  $MoA = A$ 's Moon,  $MoB = B$ 's Moon)

Possible Interpretation:

Composite is strongest of 3 patterns, with strong synastry and similarity.

Midpt-to-Midpt emphasizes synastry (energy flow between charts).

Mixed Midpt emphasizes compatibility/friendship/similarity.

MC	4 deg 51 min Gemini	MC	23 deg 20 min Taurus

### Category Totals

1. Romantic and Sexual Attraction: 28
2. Similarity of Interests and Temperament: 143
3. Mutual Success and High Achievement: 84
4. Problem Solving, Communication, and Mutual Understanding: 8
5. Mutual Kindness, Friendliness, Pleasantness, and Peace: 98
6. Aggressiveness, Competition, Power, Success, or Violence: 77
7. Adventurousness, Surprises, Disturbances: 146
8. Shared Creativity, Imagination, and Inspiration: 51

Given above are your compatibility scores in 8 different categories. A score of 100 is average. A score above 100 indicates that the trait is strong, and a score below 100 indicates that the trait is weak. More specifically, you can interpret the scores as follows:

Above 150 is very high. This trait is VERY strong!

125 to 150 is above average. The trait is strong.

115 to 125 is slightly above average. The trait is slightly strong.

85 to 115 is average.

75 to 85 is slightly below average. The trait is slightly weak.

50 to 75 is weak.

50 or lower is VERY weak!

Note that there is no strict dividing point in the scores so a score of about 115, for example, is at about the point where the trait is noticeably above average. As with most things in life, like height, weight, intelligence, etc., there is a gradual continuum of scores, but these dividing points are fairly good indicators of when a trait stands out as being strong or weak.

The titles of the categories are fairly self-explanatory, but here are some additional notes:

1. Romantic and Sexual Attraction: Physical appearance and other characteristics can affect how sexually two people are to one another, but sometimes you can be surprised that a person who is physically attractive is not as sexually attractive as another person, or vice versa. Astrologers believe that astrological influences have a big role as well. A very high score in Romantic and Sexual Attraction indicates that this is a hot relationship, which is exciting, but can be too hot for some people to handle, resulting in jealousy or over-emphasis on sexuality to the neglect of other sides of the relationship. A low score here does not necessarily mean that the two of you are not a good match, but just that sexuality is not likely to be the primary attraction that has brought you together.

2. Similarity of Interests and Temperament: People who are similar tend to be good friends. If your score in this category is high, you are likely to find that you have similar interests and approach life in a similar way. A high score indicates a capacity for teamwork and a likelihood of remaining friends for a long time. If your score in this category is low, then you tend to be very different, and hopefully you complement one another. As a simple example of this, one of you may be more aggressive and the other person more passive in the way you approach life. One of you may be more philosophical and abstract and the other person more inclined to be direct and deal with concrete facts. A low score in this category can lead to misunderstanding or lack of appreciation. However, if

you can learn to appreciate your differences, you can utilize your individual strengths to accomplish different things that need to be done.

3. Mutual Success and High Achievement: A high score in this category indicates that the two of you are likely to plan projects together and work together to achieve goals. There is no guarantee of success in life, but the two of you do inspire one another to reach higher and to motivate one another to work to achieve your dreams. You have a dynamic relationship that keeps the two of you active, always exploring, and seeking to achieve more. The biggest negative possibility in having a high score in this category is that it pushes the two of you to achieve more and if you are unable to achieve your shared goals, you may feel frustrated or disappointed. However, if you do apply yourselves, it is likely that you will achieve your shared goals. A low score in this category indicates that the main attraction between the two of you is not to be a productive, dynamic team that can achieve a great deal. You may still achieve a great deal together but it is not the primary theme in your relationship, and it is not what brought the two of you together.

4. Problem Solving, Communication, and Mutual Understanding: A high score in this category indicates that you enjoy talking to each other, and you find that you are able to communicate well. The range of topics and interests may vary, and overall you find that you are able to establish good communication with one another. A low score in this category indicates that sharing of ideas is not the primary focus of this relationship. You may still be able to communicate clearly, but you are not likely to find yourselves talking for long hours, with one conversation leading to another in an endless stream of ideas.

5. Mutual Kindness, Friendliness, Pleasantness, and Peace: A high score in this category means that you are naturally inclined to feeling supportive and nurturing towards one another. You feel very comfortable taking care of one another, and you feel very comfortable with each other. A high score in this category is common among good friends and married couples. A high score indicates a likelihood that you can weather storms together and simply enjoy one another's company. A low score indicates that the two of you need to be careful to not be overly critical or harsh towards one another. If you refrain from being unpleasant or rough, you can develop a warm and kind relationship, but it is likely to take a bit more effort than with a person with whom you have a high score in this category.

6. Aggressiveness, Competition, Power, Success, or Violence: If either of you is inclined to be overly aggressive, dominant, or intensely driven to have power and success, then a high score in this category can lead to flare-ups and even animosity. If you have a high score in this category, you need to direct this intense energy towards a cooperative effort. You are likely to find that both of you feel impatient and driven to achieve more when you are together. If you can direct this energy positively, you can be a dynamic duo that can make things happen quickly, but both of you must be sufficiently energetic and in command of yourselves to succeed with this energy. A low score in this category helps you to be patient with one another and to feel relaxed when you are together.

7. Adventurousness, Surprises, Disturbances: A high score in this category indicates that your relationship and your lives together will not proceed as expected. Expect the unexpected! The two of you attract new things into your lives and you tend to have a lively and very active life together. A low score in this category indicates that it is likely that whatever plans you may have for your relationship are not likely to be disturbed by surprises. A low score leads to a more predictable life together with fewer surprises. Surprises can be good or bad so a high score is more of a gamble. A high score works well for people who have the creativity, imagination, and stability to turn unexpected changes into opportunities for greater growth and development.

8. Shared Creativity, Imagination, and Inspiration: A high score in this category indicates that the two of you are drawn to very creative and imaginative areas together. You are a bit like children together, exploring and having fun. When you are together, you are more likely to be open-minded, receptive, and interested in creative and imaginative subjects than when either of you is by yourselves. If both of you are mature and stable, a high score can provide you with a welcome creative spirit that enables both of you to enjoy life more and to step outside mundane daily chores and responsibilities. The two of you feel inspired and you are likely to follow an idealistic dream together. You must be careful to make sure that your dreams are not the silly dreams but really do have lasting value. A low score in this category indicates that the two of you were not drawn together by fantasies and dreams, and shared idealistic dreams are not a strong shared interest of the two of you; you are more likely to deal with tangible and practical issues rather than imaginative ideals and dreams.

If you are an astrologer or a student of astrology, you may be interested in knowing how this compatibility profile is constructed. If you are not interested in the astrological factors that are analyzed, please skip this description of the astrological influences analyzed in this report. The astrological influences analyzed are as follows:

Category 1, Romantic and Sexual Attraction, is based on aspects of Mars, Uranus, Neptune, and Pluto to Venus between each other's charts and in the composite chart.

Category 2, Similarity of Interests and Temperament, is based on having a planet in the same zodiac sign or a similar aspect, such as both people having a major aspect between the same two planets.

Category 3, Mutual Success and High Achievement, is based on aspects of Jupiter to Sun, Mars, or Pluto, or Sun-Jupiter aspects between the charts or in the composite chart.

Category 4, Problem Solving, Communication, and Mutual Understanding, is based on aspects of any planet except Neptune to Mercury in each other's charts or in the composite chart.

Category 5, Mutual Kindness, Friendliness, Pleasantness, and Peace, is based on trines, sextile, noviles, binoviles, and quadnoviles of the Moon to Sun, Venus, or Jupiter, or of Sun to Venus between the two charts or in the composite chart.

Category 6, Aggressiveness, Competition, Power, Success, or Violence, is based on aspects of Mars to Sun, Uranus, and Pluto, or of Sun to Pluto between the two charts or in the composite chart.

Category 7, Adventurousness, Surprises, Disturbances, is based on aspects of Uranus to any planet between the charts or in the composite chart.

Category 8, Shared Creativity, Imagination, and Inspiration, is based on conjunctions, trines, sextiles, quintiles, and biquintiles of Neptune to any planet in the other person's chart or in the composite chart.

In the formula used, each aspect is given a specific value and the number of points assigned is stronger if the aspect is stronger. A mathematical formula is then used to weight the final result so that the average score is 100. Because each aspect is weighted individually, the details of the astrological analysis is very long, but this brief description gives you an idea of how the analysis is done. The number of different theories in astrology is enormous, and each astrologer uses a different combination of methods. The theories used here utilize sophisticated software to analyze many hundreds of factors into a final analysis of the compatibility in these 8 categories.
