

The Friendship and Family Detailed Map

The Detailed Friendship and Family Map shows geographic areas where you are more likely to attract good friends and have a happy family life.

Areas on the map that are tinted with a red color are the best areas for developing close friendships and family relationships. Yellow areas are also good, but not as powerful as the red areas. The orange-colored areas fall in between the red and yellow areas in intensity. A geographic area varies from light yellow (slight emphasis) to deep red (strongest emphasis).

An area with no coloration is not a strong area for friendship and family. This does not mean that you are destined to loneliness and solitude if you live in one of these areas. It simply means that there is no astrological boost to help you attract people that you are compatible with or to attract an environment where friendships and family relationships can flourish, but this fact does not mean that there is a roadblock that prevents you from developing strong bonds with friends and family members.

Most likely you will find that most areas do have a yellow or red color. Does this mean that most places are suitable for you to live? Yes! From an astrological point of view, you have the ability to feel integrated and involved with your local community and feel at home in most places. The explanations given below show the quality and manner in which you can feel at home in those areas which are colored red or yellow in the map.

You should use common sense when studying your Detailed Friends and Family Map. For example, suppose that you are currently living in the town where you grew up, close to many family members and you have developed strong friendships over the years. If you are thinking of relocating to an area where you have no friends or family, then you can expect that it will take a long time before your circle of friends and family is similar to what you have in your home town no matter where you move to.

However, some people are surprised to find a wonderful circle of friends in a town that seems not very different from other towns where they felt more isolated or lonely. The Detailed Friendship and Family Map can help you identify those areas that are either favorable or unfavorable for unknown reasons. Astrology often explains what otherwise is difficult to understand.

Note also that astrology is not fatalistic. It is up to you to utilize the energies available to you in the best possible way. Astrology can help you better understand what kinds of energies underlie your present situation, and thereby help you to take the right steps to improve your life.

The Detailed Friendship and Family Map shows areas where you are most likely to develop strong friendships. There are also qualitative differences to various geographic areas. In some areas, for example, you may have a few, very close friendships, and in other areas you may have a wide circle of friends and acquaintances but perhaps not as many close friends. Both areas are good for friendships but in different ways. Given below is a brief explanation of the influences that are in your Detailed Friendship and Family Map. If you follow the lines through the map, you will see astrological symbols in a light yellow or pink oval-shaped area. Locate the symbol on the pages below to see what the "flavor" of this influence is. In the description of these astrological influences we frequently

emphasize what you can do to utilize the astrological influence to best advantage. As we said earlier, astrology is not fatalistic and should never be an excuse for failure or problems in your life. You have the ability and opportunity each day to express the energies available to you in new, creative, positive life-enhancing ways.

Some symbols have a number between the 2 glyphs of the planets. If the number is 20, 80, 100, 140, or 160 it will not appear in the list of symbols below, but it has the same meaning as the number 40.

Areas of intensity on your Detailed Friendship and Family Map are very sensitive to accuracy of birth time. On average, a difference of 1 minute in the time of birth can move the astrological influence about 15 miles in an east-west direction. Because it is very possible that your birth time can be inaccurate by a few minutes, you may find that the Detailed Friendship and Family Map can pinpoint the towns and cities that are most suitable for you, but you must rely on your own intuition to guide you to the most suitable areas within that town.

Your Friendship and Family Map is based on the most sophisticated and accurate astrological techniques available. These astrological influences have not yet been scientifically verified and astrology is a very controversial subject, but we do believe that there is validity to this map, and we hope you find it useful.
